## COMPETENCIES & CERTIFICATIONS

- Project Management: Proven ability to manage multiple projects and meet deadlines.
- Leadership: 5+ years' experience leading teams and guiding them towards achieving objectives.
- Technical writing
- Leading Strategic Growth: Columbia Business School Executive Education

## TECHNICAL PROJECTS

### Knit Picky - [Github](#) | [Demo](#)

Ecommerce web app that allows users (as customers) to shop through yarns and notions.

- Built out a full stack web app with Python, React, and Typescript that mimics an ecommerce shopping experience.
- Built RESTful API routes with Flask-RESTful and SQLAlchemy to organize data from 8 database tables.
- Employed Typescript with React and useContext to build out a front-end that connects to the APIs to render products, save orders and order items, authorize new and existing users, and create wish lists.

### Noodle On It - [Github](#) | [Demo](#)

Web app that allows users to save and explore recipes.

- Built out a full stack web app with Python and React that allows users to interact with recipes.
- Collaborated with another engineer to build out feature branches such as adding new recipes and recipe collections, adding notes to dishes, and searching through all available recipes.
- Used Bcrypt with cookies and session to authorize users and salt and hash passwords in the database.

## EXPERIENCE

### Fabletics
